1. There are two Cotton Industry Unions in Lower Silesia: one in Rychbach (Reichenbach - K27) and the other in Jelenia Gora (Hirschberg - G68).

2. The union in Rychbach has thirty-nine factories. There is a tendency to reorganize the industry in this area, so that the independent dye works, spinning plants, and weaving mills are merged into self-sufficient units.

3. A Trading Center has been created. Up to July 1946, 80% of the entire output was dispatched directly to the USSR, and most of the remaining 20% was also purchased by the Soviets. Since July the entire output has been dispatched to the Trading Center (Centrala Handlowa) in Lodz; it is not known how further distribution is made.
